

# Internship Job Description

Nokia is a global leader in the technologies that connect people and things. With state-of-the-art software, hardware, and services for any type of network, Nokia is uniquely positioned to help communication service providers, governments, and large enterprises deliver on the promise of 5G, the Cloud, and the Internet of Things.

Serving customers in over 100 countries, our research scientists and engineers continue to invent and accelerate new technologies that will increasingly transform the way people and things communicate and connect.

## **The Nokia Summer Internship Program – Your Next Chapter 2023**

**Are you looking to kick-start your career after graduation? Are you passionate about the Telecommunication industry? Do you want to prove yourself in a global company? Then this opportunity is perfect for you!**

**Our team is seeking graduates to work side by side with our local teams in our offices. We will be offering our internship program for students in 2023, for approximately 3~4 Weeks.**

Our 4 weeks internship program will allow you to work alongside Nokia engineering teams solving real, technical problems. Throughout the program, you will contribute to meaningful work while receiving support and valuable lessons from a Nokia Future Tech Mentor. You will discover new possibilities and skills that will help you make an impact on the future of technology. You will have the opportunity to have exposure across multiple MN Portfolio within the firm and Customer Experience!

The Mobile Networks Technology and Solution organization provides a common interface to customers including account and relationship management, acting While bringing a deep understanding of local markets for our customers, the MN organization ensures strong alignment between Presales, sales and delivery teams.

Your training will consist of:

- On-the-job learning
- Structured courses
- Interactions with your manager and peers
- Market research and analysis
- Mentoring through job-specific training
- Working on real projects
- Research and analysis of the GTM approach
- Networking with your fellow interns

**What we offer:**

- Opportunity to prove yourself in a global company
- Being part of a great professional team
- Working on interesting & diverse projects
- Future career opportunities

**\*\*\*Please note this is an unpaid internship opportunity**

**Who you are:**

- Telecom/Data/Computer/Electronics/Communication/Electrical Engineering Senior Students
- Proficient in the English Language
- Strong desire to learn & develop himself/herself professionally
- Proven ability to work in a team environment (including extracurricular activities)

**Nokia is committed to inclusion and is an equal opportunity employer**

Nokia has received the following recognitions for its commitment to inclusion & equality:

- One of the World's Most Ethical Companies by Ethisphere
